

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.”

The Declaration of Independence

For 47 years, our Nation’s laws have ignored the scientific truth that our unborn brothers and sisters are, in fact, fully human, fully alive, and that they possess an unalienable right to life.

Every one of us began our lives as a single cell, smaller than a grain of sugar, but with all our traits already determined: boy or girl, eye color, hair color, and even our dimples!

By day 21, our hearts were circulating our own blood. At 40 days, our brain waves could be detected.

By 8 weeks, every organ was present, and our liver and kidneys were functioning.

At 4 months, we could suck our thumb, turn somersaults, and we could feel pain.

From that point forward, we have simply grown up!

We, the undersigned, see the killing of unborn children as a national tragedy. We are dedicated to protecting life -- Join us!

1. Birth control pills, emergency contraception (also called “the morning after pill”), contraceptive injectables, contraceptive implants, and IUDs, sometimes prevent the implantation in the mother’s womb of a young human being and result in the death of a human person. (see <http://loraincountyrighttolife.org/the-truth-about-chemical-abortions/>)
