

“We hold these truths to be self evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness.” The Declaration of Independence

January 22 - A tragic anniversary for our nation: On that day in 1973, the U.S. Supreme Court took away the right to life of unborn children. Instead of protecting life, the Court made it the role of government to protect killing. The Court ignored science and instead declared American children before birth -- living human beings -- to be less than human.

Every day, the abortion industry in the U.S. kills thousands of American babies by surgically ripping them from the safety and warmth of their mothers' wombs. (see www.abortionprocedures.com) Thousands more are killed by birth control chemicals and devices and so-called "emergency contraception" -- all of which can cause early abortions.

Help Bring America Back to Life: Abortion pits a mother against the life of her child. But we can love and care for both mother and child, even in difficult circumstances. It's time to return to the view that every human life, born and unborn, is a gift from God to be welcomed, respected, and protected.

For 47 years, our Nation's laws have ignored the scientific truth that our unborn brothers and sisters are, in fact, fully human, fully alive, and that they possess an unalienable right to life.

Every one of us began our lives as a single cell, smaller than a grain of sugar, but with all our traits already determined: boy or girl, eye color, hair color, and even our dimples!

By day 21, our hearts were circulating our own blood. At 40 days, our brain waves could be detected.

By 8 weeks, every organ was present, and our liver and kidneys were functioning.

At 4 months, we could suck our thumb, turn somersaults, and we could feel pain.

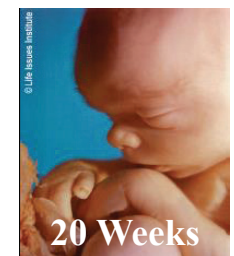

From that point forward, we have simply grown up!

1. Birth control pills, emergency contraception (also called "the morning after pill"), contraceptive injectables, contraceptive implants, and IUDs, sometimes prevent the implantation in the mother's womb of a young human being and result in the death of a human person. (see http://loraincountyrighttolife.org/the-truth-about-chemical-abortion/)
