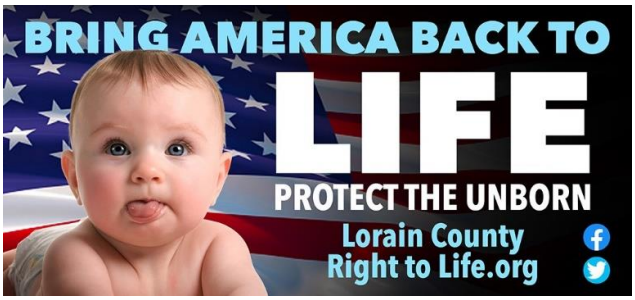
Fall 2021 Issue

LorainCountyRightToLife.org



Lorain County Right to Life will have the Annual Ad and Billboard Campaign during the month of January, 2022. On January 22, 1973, the United States Supreme Court handed down two landmark decisions, *Roe v. Wade* and *Doe v. Bolton.* These decisions legalized abortion on demand throughout all nine months of pregnancy and for any physical or psychological reason. January 22, 2022, will mark 49 years of legalized abortion on demand in the United States. The Campaign will include print ads in area newspapers, online ads, and Pro-Life Billboards on display throughout Lorain County during January. As last year, while the print ads will not have sponsor names, to acknowledge the continued importance of our sponsors, their names will be prominently displayed on our Web-site LorainCountyRightToLife.org. All print and online ads will have a link to our Web-Site. Please join us in this year's campaign by completing and sending in the Sponsor Form inside this newsletter by January 7, 2022. If you would like a full-page sheet to collect other names, please call us at 440-322-0076 or email us at info@loraincountyrighttolife.org and we will get a sign-up sheet to you as soon as possible. The sign-up sheet, sample bulletin inserts, and other useful materials are also available on our Web-Site: loraincountyrighttolife.org. If anyone is interested in being a point of contact for their church, please call us or email us and we will send you everything you need to spread the word and collect names at your church.

COME PRAY: Please join us on the first Thursday of each month, at the Prayer Vigil at the Planned Parenthood in Lorain from 3-4 p.m. This facility is located in the YWCA Women's Center building at 200 W. 9th St. While this facility does not perform surgical abortions, they (like all Planned Parenthood facilities) encourage sexual promiscuity, and provide abortifacients, such as the birth control pill, even to minor children. Please join the Prayer Vigil each first Thursday afternoon. Prayer is the most potent weapon we have in the battle for life!

NEWS AND NOTES:

NATIONAL PRO-LIFE FLAG WINNER: A campaign to select a National Pro-Life Flag was held and the winning entry shown above was announced. The Pro-Life Flag is highly symbolic of both unborn children and their mothers. With two feet (child), two hands (mother), two stripes and two main colors, it emphasizes the TWO lives present in a pregnancy and the love the pro-life movement shows to both. The Pro-Life Flag was created and voted on by members of the pro-life movement to provide a unifying, symbol for the pro-life cause. If you would like to have a Pro-Life Flag, orders can be made at prolifeflag.com.

SUPREME COURT CASE TO CHALLENGE ROE: The U. S. Supreme Court will take up the *Dobbs v. Jackson Women's Health Organization* case. *Dobbs* brings into question Mississippi's 15 week abortion ban which bans nearly all abortions in Mississippi after 15 weeks. At 15 weeks, an unborn baby can move all of her limbs, sense light, hiccup and suck her thumb. Recent scientific studies indicate that unborn babies may be able to feel pain as early as 12 weeks. This will be first abortion case since confirmation of Justice Amy Coney Barrett. Ohio Right to Life reported that in support of this case, 28 Ohio legislators signed amicus or "friend of the court" briefs urging the United States Supreme Court to overturn *Roe v. Wade*.

IT'S HOW THEY SAY IT: The Fifth Court of Appeals handed the pro-life movement a significant victory by upholding a Texas law protecting the state's unborn babies and their mothers. The legislation stops live-dismemberment abortion, a particularly brutal and gruesome act. While this victory is of enormous importance, there was an added gift tucked within the pages of the majority opinion authored by Judges Jennifer Walker Elrod and Don R. Willet. The authors begin their majority opinion sharing the Texas Legislature's definition of live-dismemberment abortion. Words have meaning, and when used effectively, they pack a powerful punch in the defense of life while exposing the ugly reality of

abortion. Their words remain as a permanent testament of record from one of the highest levels of America's judicial ranks. The full article at Life Issues can be read by going to: www.lifeissues.org/2021/08/its-how-they-say-it/

IN OTHER TEXAS NEWS: The U.S. Supreme Court let stand the Texas Heartbeat Act. The law, which went into effect September 1st, prohibits abortionists from killing preborn babies after a heartbeat is able to be detected by medical equipment, usually around 21 days after fertilization. The law's unique enforcement mechanism allows individuals to file suit against abortionists who are caught breaking the law. An article from Live Action and Students for Life helps sort through the Media coverage relating to the Texas Heartbeat Act: www.liveaction.org/news/top-8-myths-texas-abortion-law/

ATTENTION STUDENTS AND TEACHERS: Our website (www.loraincountyrighttolife.org) is regularly updated with extensive information on Pro-Life issues. Perfect for papers and assignments. Check out the Resources and Issues tab on our website. We also welcome suggestions for additions.

HOME-MADE AFGHANS: A generous member of Lorain County Right to Life has made available some beautiful Afghans for a suggested donation of $50 or more to our life saving work. We are extremely grateful for the hard work that went into making these one-of-a-kind creations! To see photos and sizes of all the Afghans that are available and to make a donation, go to: loraincountyrighttolife.org/afghans.

A RECENT LETTER TO THE EDITOR AT THE CHRONICLE TELGRAM

There are a myriad of reasons why Americans have chosen not to receive the COVID 19 vaccine. For Christians, and other people of good will, there is yet another very important reason for foregoing the vaccine. The Charlotte Lozier Institute (and others) have documented the connection between the laboratory testing of the Pfizer and Moderna coronavirus vaccines and harvesting cells from aborted fetuses. The Johnson and Johnson vaccine uses these cells not only in the testing phases but also in production and development. For those of us who recognize the dignity of unborn children, this creates a moral dilemma. Many of us will not consider any current treatment for this virus until an ethical alternative is available. There is hope for such an alternative. Dr. Alan Moy and his team at the John Paul II Medical Research Institute in collaboration with Cellular Engineering Technologies are exploring using adult human stem cells taken from cord blood to develop a vaccine for the COVID-19 virus. The Institute's goal is to create a pro-life biotech sector and develop ethical alternatives to using cell lines from aborted fetuses. The trafficking and commoditization of aborted fetal tissue for use in the research and development of vaccines (and other products) continues the dehumanization and disrespect of innocent unborn life.

John Ciarrone, President, Lorain County Right to Life
