## Life is a Gift

Our Nation was founded on the principle that each human life is a gift given by our Creator God. Each one of us is valuable beyond measure and is endowed with rights, specifically because God has poured His creative genius into making each one of us. We can rejoice that each of us is unique and unrepeatable. We are wonderfully made to know and to love God and each other. And in God’s plan, a husband and wife are given the awesome privilege of co-creating, with God, a brand new human life.

### January 22 – A tragic anniversary for our nation

On that day in 1973, the U.S. Supreme Court took away the right to life of unborn children. Instead of protecting life, the Court made it the role of government to protect killing. The Court ignored science and instead declared American children before birth – living human beings – to be less than human.

**For 48 years, our Nation’s laws have ignored the scientific truth that our unborn brothers and sisters are, in fact, fully human, fully alive, and that they possess an unalienable right to life.**

*Every one of us began our lives as a single cell, smaller than a grain of sugar, but with all our traits already determined: boy or girl, eye color, hair color, and even our dimples!*

**By day 21, our hearts were circulating our own blood.**

At 40 days, our brain waves could be detected.

**By 8 weeks, every organ was present, and our liver and kidneys were functioning.**

**At 4 months, we could suck our thumb, turn somersaults, and we could feel pain.**

**From that point forward, we have simply grown up!**

**Every day, the abortion industry kills thousands of American babies** by surgically ripping them from the safety and warmth of their mothers’ wombs. (see [abortionprocedures.com](http://abortionprocedures.com)) Thousands more are killed by birth control chemicals and devices and so-called “emergency contraception” –all of which can cause early abortions (see [LorainCountyRighttoLife.org/ChemicalAbortion](http://LorainCountyRighttoLife.org/ChemicalAbortion)).
